

**Blister Packaging  
Tooling and  
Feeding Systems**

THE *Elizabeth* COMPANIES  
Elizabeth Carbide Die Co., Inc.

## ***Full-Line Blister Packaging Tooling and Services for Continuous Motion and Intermittent Blister Packaging Machines***

**The Elizabeth Companies combine technological expertise and unequalled personal service to provide top-quality blister packaging tooling of all makes and models.**

Our services include complete changeovers from forming to cutting, overhauling of existing tooling, and providing dependable backup parts. Our tooling comes with an in-depth and detailed inspection report, guaranteeing the Elizabeth quality our customers expect.

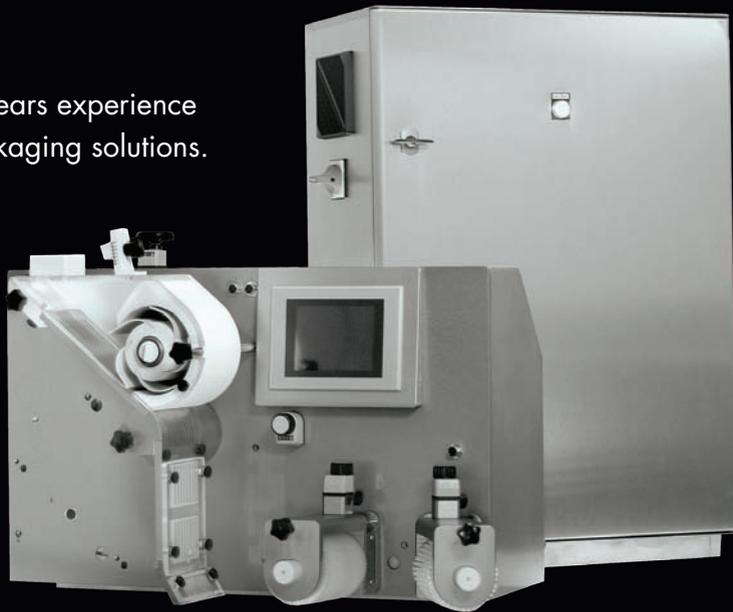

We also offer engineered feeders for both continuous motion and intermittent machines. Complete blister design services are available to match customers' marketing and production requirements. Our feeders are 100% certified and tested in-house in our simulated production environment.

## Serving the World

Elizabeth-EPMO of Blois, France has more than 25 years experience designing and manufacturing high-quality blister packaging solutions.

**EPMO's patented Combo Feeder** provides an intelligent, flexible solution for feeding of numerous solid dose formats in a single platform. The Combo Feeder can quickly be configured with any of four dedicated feeding formats: Vibrating Ramp, Brush Box, Static Chute, or Tube. The Combo Feeder is especially attractive in production environments that require rapid, reliable product change-over on a frequent basis.

## Quality Performance

- Experienced project engineers serving the pharmaceutical industry
- Designs specific to your blister packaging needs
- Craftsmen and equipment dedicated to blister tooling
- Thousands of tooling projects

## Quality Products

- Feeding Systems
- Complete tooling for all makes and models of blistering machines
- Inspection equipment
- Cartoning tooling

## Quality Service

- In-house testing
- On-site commissioning and support
- Competitive pricing
